REPORT OF THE BOARD OF EDUCATION.

Another school year is completed and ready to be bound in the volume of the past.

With the majority of our schools we can unanimously say that the record is a credit to the town, pupils and parents. Your Board have labored for the interests of the community and endeavored to procure successful teachers. While the Board hold themselves responsible to a certain extent for the success of your schools, the parents are equally responsible. Do you as parents realize the power and influence that you possess and should wield in assisting to form the character and usefulness of our schools? The schools belong to you. Do you aspire to place them on a higher level? Do you visit the schools during the year and note the behavior of your boys and girls, whether they are improving the golden opportunities or simply drifting without any aspirations. Parents, friends are your ideas of the real value of our schools based upon your own personal knowledge of them or upon your powers of imagination, hearsay, or the exaggerated reports of pupils? A good school is and must be an orderly and methodical one. A sense of honor and pride must prevail; This must be nurtured by the teacher, who to be successful, must constantly have before her the responsibility that rests upon her, not only of stimulating the brain, but of cultivating the morals of those in her charge. We do not believe in constantly nagging a pupil or of unreasonable punishment, but you must have certain rules that must be obeyed. What would be the condition of our town if we had no laws to be enforced? if a pupil defiantly breaks a rule should he not be punished?

A teacher should be granted reasonable authority, which should at all times be respected and maintained. If the Board fail to meet your approbation, consult with them and thoroughly investigate all seeming errors ere you condemn them. The large number of visits made by parents and friends speak highly for your interest. The many words of encouragement that have been spoken to the teachers and your Board have been fully appreciated.

A larger sum of money will be required for books the ensuing year as many of them are completely worn out from use, not abuse, as the pupils are unusually careful in defacing them.

New desks are needed at the Grammar and Village Primary schools for the teachers, and single desks for the pupils would improve the order.

Following is the Statistical Report.
